### **Communication:**

It is our first priority to make a lifelong breeder bond with our new adoptive families. If at any time you have an issue or a miscommunication, please never, hesitate to contact us, especially by phone, which is the easiest way to clear up any issue(s) that may arise with the purchase of your puppy. Our goal is to connect you with a puppy that can be part of your family for years to come. Once a hold fee is received, we start to send photographs so that buyers can begin to establish their relationship with the new puppy as soon as possible. We only approve families that have demonstrated to us that they are ready for a long-term commitment and with this we take a very personal approach to assisting each buyer in choosing the perfect puppy to meet their needs. Because our approach is so very personal, we maintain a high level of contact with our new families, answering questions, phone calls, and emails and expect the same in return. We feel this is important for us to get to know our new families so that we can prepare your family for your new puppy.
