

Whether picking up your puppy in person or greeting them at the airport, here is a list of a few helpful things to bring with you:

1. It is better to travel with the puppy in a secure travel crate in case of an accident.
2. Paper towels in case of car sickness or other mistakes. Moist baby wipes are also great to have on hand for quick clean ups. Remember to take a rubbish bag.
3. A soft towel or baby blanket for your puppy to snuggle in. We supply one that they have been sleeping on.
4. A small bottle of water and a shallow bowl for drinking, in case your puppy gets thirsty.
5. Pet Pads – Please do not put your puppy down on the ground in places like a rest stop, right outside a store etc where MANY dogs have also used the bathroom in the same grass before you & your little puppy were there. Many dogs are not vaccinated & if there was a dog that had parvo even 1 year ago & used the bathroom in that spot, the Parvo may still infect your puppy & can be lethal to him/her. Your puppy is not protected against Parvo until all 3 or 4 vaccinations are complete. You may think this Parvo protection instructions sound like “over-kill”, but it is not. After you pup has been fully vaccinated you do not have worry about this kind of thing.
6. You must take photo ID when picking up from the airport and only the named person is to pick up from the airport. Keep your cell phone on you!
7. For picking up your puppy at the airport please phone the airport before pick up and find out whereabouts you are to go.

What Comes with Your Puppy

We are proud that we have been raising extremely healthy puppies for a long time

They are wormed at 2/4/6/8 weeks of age

At 6 weeks of age they receive their 1st set of puppy shots

Your puppy packet includes your puppy's records, treats, toy and a blanket they have been sleeping on

6 weeks free puppy insurance

Our puppy guides are available for download via our website

And just in case you have not purchased puppy food, don't worry, I do have food for purchase here or I can give you a wee sample bag to transition your puppy on to your food.

We do have a small shop here for your puppy needs
